

Our mentor-lab coaching courses satisfy several important functions for emerging and established coaches. Their over-riding purpose is to strengthen the coaching competence of the coaches present through live coaching sessions and small group discussion.

These courses provide excellent focused and targeted training in coaching skills, methodology, ethics and processes. They also **meet group mentor coaching requirements for certification and**

re-certification applications. Register with Option 2 includes three individual mentor coaching sessions with the trainer to earn the required ten mentor coaching hours.

Designed for our program graduates, coaches trained elsewhere who have 60 hours of comprehensive coach training plus 75 paid client coaching hours are welcome. Only GMC is restricted to CAT graduates. **Neurodiversity & ADHD coaching strategies are intrinsic to each course** whether or not neurodiversity or ADHD is in the title.
